PROFESSIONAL SUMMARY

Frontend developer with hands-on experience building and deploying responsive web applications with React, TypeScript, JavaScript, Next.js, and Tailwind CSS. Experienced in turning product ideas and design references into working interfaces, debugging frontend issues, and building user-focused features. Creator of FaithScore and FaithLibrary.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend / Data	Supabase, REST/API integration, authentication, database integration
Tools	Git, GitHub, Vercel, Netlify, npm, Vite, VS Code
Libraries	React Router, Recharts, Lucide React, React Icons, VexFlow, PDF.js, React-PDF

EXPERIENCE

Frontend Developer Intern — DumoTech

Remote | Aug 2025 – Jan 2026

- Assisted in building UI-based components using TypeScript within a remote development environment.
- Contributed to responsive, component-based frontend interfaces and strengthened practical TypeScript workflows.

SELECTED PROJECTS

FaithScore — Music Notation Web App

React, JavaScript, Tailwind CSS, VexFlow

Built and deployed a staff and Solfa notation application with SATB notation, lyrics, playback, time signatures, key signatures, and focused UI features such as Lyrics Mode.

Live: faithscore-6c35.vercel.app | GitHub: github.com/081dikeh/Faithscore

FaithLibrary — Digital Choral Music Library

Next.js, TypeScript, Tailwind CSS, Supabase

Built a digital library for Christian and choral scores with authentication, uploads, PDF viewing, search, bookmarks, collections, downloads, and responsive UI. Used by around 10 users.

Live: faith-library.vercel.app | GitHub: github.com/081dikeh/FaithLibrary

FaithBeat — AI-Powered Hymn Composer

React, JavaScript, Tailwind CSS

Built a music-focused interface exploring AI-assisted hymn composition and generation workflows.

Live: faithbeat.vercel.app | GitHub: github.com/081dikeh/Faithbeat

Fina Inc — E-commerce Dashboard

React, Tailwind CSS, React Router, Recharts

Built a responsive dashboard with reusable components, routing, charts, and data-driven UI patterns.

EDUCATION

B.Sc. Microbiology — Nnamdi Azikiwe University

2020 – 2024

ADDITIONAL

Interested in product-focused frontend development, music technology, and building practical tools from real problems. Uses AI-assisted development for debugging, research, feature planning, and implementation while validating solutions independently.
